

ETS.
ABI KHALIL
S.A.R.L.

Offices & Schools
Furniture Catalogue

Founded in Beirut, Lebanon in 1958, Ets. Abi Khalil, the family run business has forged its way through the years with the efforts of the Abi Khalil Brothers.

In its early beginnings, the company's operations focused on iron and woodworking and later on expanded towards the so-called "modern furnishing" sector. The company continued to grow in size, fame and above all excellence, thanks to the regained quality of its manufactured goods, which now cover the entire range of furnishing models.

Ets. ABI KHALIL furnished a large number of hotels, schools, ministries, airports, restaurants and hospitality locations, involved a major part of company activities and residences. We have offered our clients a matchless collection of top quality experience, considering the special features of such particular environments that require high-performance, long-lasting products with excellent shape-aesthetic features.

Our company decided to expand into the textile trade. Supported by our experiences gained over many years, our team was well equipped to take on such a new venture, and we were ready to accept this exciting challenge spending years researching the secrets of textiles. Our ambition has always been to import fabrics which united all their historical beauty, both in terms of design and color, but which also captured the ambiance of their past..

This combination of the antique art combined with modern industrial processes has enabled us to reach such a high standard in production. From armchairs, sofas, chairs, offices, tables, bedrooms to hard wood flooring and component units, we work hard to ensure that each piece is created unique in its own right.
